---

## EDUCATION

---

**Vasantdada Patil Pratishthan's College of Engineering (VPPCOE)**

*B.E in Information Technology*

**July, 2025**

*Sion, Mumbai*

- **GPA: 7.9** (Avg. over 7 semesters)

**Viva College Completion:**

*Computer Science*

**May, 2021**

- Achieved a score of 90.67% in HSC

**St. John XXIII High School Completion:**

**March, 2019**

- Achieved a score of 89.00% in SSC

## PROJECTS

---

### Social Media Analysis Dashboard

- **Description:** A web application developed using React and Flask to analyze real-time social media sentiment. The dashboard features a user interface integrated with a backend that fetches and processes tweets via the Rapid API.
- **Technology:** React, Flask, Rapid API, AI-ML model, Shadcn.
- **View project:** <https://github.com/nishadbhujbal/Social-Media-Analysis>

### Body Balance Bites

- **Description:** A comprehensive Meal Planner website developed during an IBM Skillsbuild internship. Features include a BMI Calculator and sections for Weight Gain & Weight Loss, fetching relevant recipes via API calls.
- **Technology:** HTML, TailwindCss, Nodejs, Spoonacular Api
- **View project:** <https://github.com/nishadbhujbal/BodyBalanceBites>

### Traffic Congestion Prediction

- **Description:** A web application developed as an IoE Mini Project to predict traffic congestion levels in Mumbai. As the Frontend Developer and Integration Lead, I designed the user interface and integrated it with a backend powered by machine learning models ensuring seamless communication between frontend, backend, and data science components for efficient user interaction.
- **Technology:** TailwindCss, React, Flask & machine learning models.
- **View project:** <https://github.com/nishadbhujbal/Next-Gen-Traffic-Prediction>

## CERTIFICATIONS, SKILLS & INTERESTS

---

- **Certification:** IBM CSRBOX Web Development Program
- **Skills:** Tailwind CSS, Javascript, React.js, problem solving & logic building with Java
- **Interests:** Reading, Cricket, Football
